

Quad Series diaphragm pumps

3 1/2 [88.9]

Overview

PRODUCT FEATURES

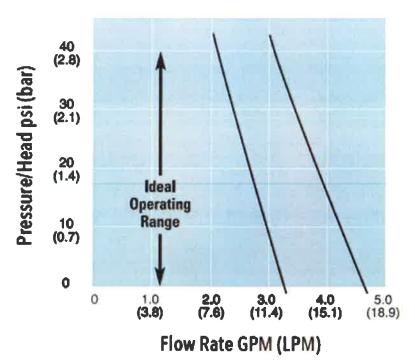

- Built-in pressure switch automatically starts and stops pump when discharge valve opens and closes
- · Compact design and plug-in port fittings make installation easy
- Can run dry without damage and handle liquids up to 130°F (54°C)
- Excellent self-priming capability; pump may be located above the liquid level

Flojet developed the Quad Series diaphragm pumps to deliver flows up to 5 GPM (18.9 LPM) using a four-piston design with excellent self-priming capability.

Aside from general purpose needs, including water transfer or spraying, Flojet Quad Series pumps can also accommodate the pressure and flow

12V and 24V DC
